Product Description

Mini Advent calendar "Da liegt die Bescherung"

This Mini Advent calendar is the little brother of Brück & Sohn's big advent calendar. It shows a glitch that has happened to one or the other before and certainly could not get a better title than "There is the mess". The original of this hand-colored wood engraving comes from the Archiv Verlag Werner in Munich. Send this funny advent calendar as a postcard to your family and let them participate in the pictures behind the windows.

- Content: Folded card with envelope
