Product Description

Mini Advent calendar "Freiberg"

The mountain town of Freiberg is at the edge of the Ore Mountains. Silver mining was operated in the Middle Ages, which brought wealth to the rulers. The Freiberg Cathedral St. Marien was built in this heyday and it houses important attractions. The Golden Gate, two Silbermann organs and the Miners- and Tulip Pulpit attract thousands of tourists every year to Freiberg. This lovingly designed Mini Advent calendar is an ambassador for the cathedral city of Freiberg in Saxony. Send it as a holiday greeting into the world and make someone happy. It's fun to open the little windows and be surprised by the Christmas and Erzgebirge pictures.
