Product Description

Advent Calendar - Colourful Hustle and Bustle in the Village

This large-format Advent calendar with the Victorian motif "Colourful Hustle and Bustle in the Village" will be the eye-catcher in the Christmas decoration. The calendar, measuring around 35 x 26 cm, is just as enchanting as a wall decoration or as a display calendar. And with a candle or other light source behind it, the details in the doors come into their own even better. Apropos details: The Victorian Advent calendar motif "Colourful hustle and bustle in the village" provides an incredible wealth of stories. On one side the village lies under a thick layer of snow, on the other side it is filled with the lively villagers who still buy the last presents or just enjoy the Advent atmosphere.
