Product Description

Advent Calendar - Christmas Market

A dense snow-covered landscape, soft lighting in the windows and a small inviting, cosy Christmas market. For many, this scenery from a mountain village in winter is the epitome of a tranquil Advent season. It does not matter if the real weather is without snow and wet and cold - the Advent calendar in large format with the motive "Christmas market" brings the right Christmas mood home. As with all Sellmer Advent calendars, the pictures behind the windows are matched to the overall motif.
