Product Description

Advent calendar - Its Christmas

When Christmas is just around the corner, an atmospheric Advent calendar makes young and old alike look forward to the festive season. These calendars with Christmas motifs show lovingly designed festive scenes that put you in the mood for the coming holidays already during the Advent season.

Make your loved ones happy with this classic Advent calendar, which shows a festively decorated Christmas parlour from the sixties. An unusual motif, with nice transforming doors and elaborate mica ornaments. This Advent calendar in retro style is a nice souvenir for young and old.

This popular calendar series is in the format 265 x 355 mm. Very attractive Christmas calendars that you can hang on a window. The back pictures behind the doors are transparent and shine in front of a light source. An attractive window decoration in the pre-Christmas period. The pictures behind the doors are always coordinated with the large Advent calendar picture. Thus the French doors allow the wonderful picture to remain in its beauty even when all windows are open. It is a great pleasure to discover always new funny details.
