Product Description

Hangit photo wall, natural

The Hangit Photo Wall is a collage picture frame with wire yarn and mini clothespins for hanging photos, pictures, postcards and art.

There is nothing like a beautifully designed scrapbook. The thoughtful process of collecting and attaching the exquisite pieces is art. While most of us have digitized this process and manage and share ideas on social media sites like Pinterest, Instagram and Tumblr, we think it's important to get away from pixels for a moment and bring your favorite images to life.

We present Hangit from Umbra. Forget scissors and glue and show your photos in a way that can be admired by many. Attach your photos and memories with the mini clothespins distributed on 5 wire cords - arrange your objects as you like best. Hangit is a special gift for special people in your life such as family, friends, teachers or fellow students. Don't hide your pictures and keepsakes in your mobile phone or photo album, but create your own personal photo gallery for your home, office or student room.

The versatile Hangit photo frame can also be used for many other things, such as tickets, awards or children's artwork. Use Hangit for anything that has a special meaning for you. Hangit is also the perfect decoration for student apartments. Your room decoration can be changed in no time at all. Share pictures, clip photos from your last weekend on the cords, or attach inspirational quotes to your Hangit. Alternatively, you can use it for your wedding reception. Whether it's for your seating plan, an attractive holder for congratulations, or a frame for photos of family, friends or special memories from the past, Hangit is versatile. Did we already mention that Polaroid pictures also look good on Hangit?
