Product Description

TRIFLORA hanging flower pots, set of 3, white/brass

Do you love the look of beautifully presented plants in a window? Or the idea of growing fresh herbs in your kitchen? Then this clever window decoration by Umbra is the solution. We present the Triflora Vasentrio by Umbra.

Triflora combines the functionality of a curtain rod with the aesthetics of potted plants. Triflora is particularly suitable for herbs, succulents and air plants. You alone decide whether Triflora is to be mounted on the ceiling or wall. Triflora makes use of otherwise unused window space and gives it a subtle green touch. The sturdy melamine pots offer space for standard plant pots (11 cm diameter).

Triflora's design is very flexible and adapts to room conditions, as this delicate vase trio is both height-adjustable and can be moved sideways. Triflora measures 63 cm x 14.5 x 107 cm (length of cord) and fits over a standard 72 cm kitchen window. Are you looking for a space-saving and elegant window decoration with an eye-catching guarantee? Then order your Triflora Vasentrio by Umbra today!

Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home & living.
