Product Description

Stately grandfather clock with working clockwork - "Limited Edition"

Let us take you into the wonderful world of miniatures. The furniture and accessories are made on a scale of 1:12 and fit wonderfully into any doll's house or miniature landscape of this size. The filigree workmanship and the attention to detail give our miniatures their very special Reutter flair.

Reutter uses high quality birch wood and rapidly renewable willow wood. This is good for the environment. Synthetic resins are used to model particularly fine and filigree articles in order to achieve the greatest possible level of detail.

All porcelain parts are decorated by hand with 24 carat gold and fired at 800 ° C. Our small works of art inspire people all over the world and often arouse a hitherto undiscovered passion for collecting.

Everything from Reutter is created with attention to detail and carefully handcrafted, so that you are guaranteed to always have a small one-of-a-kind at home. Our miniature items are not suitable for children under the age of 14.

Working clock with quartz movement and replaceable battery.
