Product Description

Black Forest incense cones M, 20 pieces

World trip - fine fragrances from all over the world.

The exotic fragrance compositions of this series take you on a mysterious journey around the world. Get to know scents from distant countries that are characterized by typical herbs and plants, such as tobacco leaves, eucalyptus or lotus blossoms get their very characteristic note.

Fresh and radiant, like the morning dew in the pine needles and the blooming heather clusters, delicate green notes merge with herbaceous elements of cranberries and damp moss. This fragrance opens your heart to the Black Forest landscape with its wild herbs and the sometimes stormy and sometimes gently flowing rivers. Breathe in warm notes of sandalwood, musk, ambergris and incense - taste and smell the forest.

The original Crottendorfer incense cones consist of charcoal, wood flour, potato starch as a binding agent and exquisite fragrances such as resins, herbs, essential oils and much more

Our expertise, which has grown over decades and is passed on from generation to generation, is decisive for the high level of quality.

Incense candles, incense sticks and incense sticks may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Always place the censer on a temperature-insensitive surface.

Use a sufficiently large censer for each incense cone size!

- Incense candle scent: Black Forest
- Package content: 20 pieces
- Size: M (12 mm x 27 mm)
