shipping weight: 0.10 kg
Manufacturer: Crottendorfer Räucherkerzen GmbH

Product Description

Incense pots made of wood, with metal sieve for incense cones size. M, XL, XXL

This wooden incense pot with metal sieve is suitable for incense cones of sizes M, XL and XXL and includes 5 incense cones size. M.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the censer on a temperature-insensitive surface.

The giants in size XL and XXL should only be made to burn up in sufficiently large incense figures or special incense burners.

All incense burners (especially the incense holder) should be cleaned regularly. By burning several incense cones, resin and fragrance deposits form, which smell unpleasant and can smoke very heavily when smoldering. You should therefore regularly clean your censer with warm water, soap and a brush.

- Size: H approx. 35 mm, Ø approx. 40 mm
- Material: wood with metal sieveColor: natural
