Product Description

KNOX Smoking Figures - Historical Steam Engine for Incense Candles

The smoke of the fragrant incense candles steams out of the chimney. The boiler is removable, under which the incense candle is inserted into the holder. The incense candles can be filled in the rear carriage. When the wagon is pulled out, there is also room for a Knox matchbox.

Genuine handicraft from the "Erzgebirge"! Made in Germany. Please use incense candles of size M.

- Colour: Black
- Material: Wood
