Product Description

UDRY Draining Mat, black

Say goodbye to soggy kitchen towels and let Udry do the work for you. Udry's design combines functionality and shapeliness. Its durable drainer rack made of BPA-free plastic is dishwasher safe (top compartment) and its extra-absorbent microfibre drainer mat is machine washable. With Udry, you get an all-in-one product that is easy to handle and clean. Unlike conventional draining racks, Udry looks good with its simple design and doesn't get in the way. You will hardly notice Udry unless it is filled with freshly washed dishes. But don't let the size fool you, Udry can accommodate an amazingly large amount of dishes, glasses, cutlery, pots, pans, etc. Udry is available in 3 stylish colours and matches every imaginable interior style. From Modern, Contemporary, Country, Rustic, Traditional, Mediterranean to Maritime. The drain mat is available in 2 sizes: Udry 60 x 45 cm and Udry-Mini 50 x 33 cm. When not in use, Udry folds up easily and can be stored in a drawer or cupboard. So you have a tidy worktop in no time at all.

Designer David Green: I'm inspired by clear and simple design, consisting of only the bare essentials. This thought inspired me to create Udry. It's lightweight, compact, functional, easy to use and easy to clean.
