Product Description

Coat hooks are practical, but rarely really beautiful. SPHERE is different. The coat rack ball combines usefulness with design and always looks like an art object on the wall. Once attached, SPHERE offers space for almost everything you have with you every day and want to keep in one place. There is room for car keys, wallet, headphones or gloves in the shiny polished sphere; bag, dog leash, scarf or jacket can simply be hung over it. And with several balls next to each other, not only more storage space is guaranteed, but also more amazement when looking at them.

Caution! Not suitable for children under 36 months.
