Product Description

NEGRETTO is one thing above all: black. Deep black. The etagere, the vases and also the bowl - the objects of the NEGRETTO product family fulfil all visual aspects of modern design with their uniform appearance. Partly powder-coated, partly enamelled - the successful mix of high gloss and matt surface creates a rare high value. Accompanied by a softly rounded design language whose pleasing appearance will still be valid after many years. Each object on its own or all together - there are no two opinions.
