

Item no.: 362441

LIM Vase, round

from **44,25 EUR**

Item no.: 362441
shipping weight: 0.60 kg
Manufacturer: Philippi Design

Product Description

Ouch! Those who until just now had thought it was stoneware may feel classically smeared. No shame at all, because behind the well-guarded façade is a solid aluminium body that - here's where it gets tricky - is covered with a flawless powder coating. That has weight! And it is also extraordinarily unbreakable. And the fact that the vases look so damn good despite all the cheating doesn't really need to be mentioned ...

- SURPRISE EFFECT: Powder-coated aluminium (not earthenware!)
- APPRECIATING NEBENEFFECT: Break-proof and stable
- ADDITIONAL EFFECT: Heavy and solid, nothing tips over so quickly
- Material: Powder-coated aluminium
- Weight: 900 g
- Length: 15 cm
- Width: 15 cm
- Height: 16 cm
