shipping weight: 0.30 kg
Manufacturer: KED Helmsysteme

Product Description

Gravelon L tricolore

The new bicycle helmet was developed especially for Gravel Bikers, with maxSHELL(R) technology, K-Fit adjustment system, K-Lock fastening buckle, K-Strap Holder belt length adjustment and K-Flex, incl. colour matching retro cyclecap (75% polyester/35% cotton).

The KED Gravelon is a development of the very popular KED Champion. It is especially designed for long distances, as gravel bikers like to cover. The maxSHELL technology as well as an integrated rear light for more visibility ensure safety. The K-FIT adjustment system is responsible for a good fit.

- MAXSHELL(R): Apart from helmets with Inmold technology and the MIPS system, we also offer helmets using the maxShell(R) process, which are produced exclusively in Germany. The maxShell(R) technology provides an increased elasticity of the bond between the helmets top shell and its down shell, which has a positive impact on the shock-absorbing properties.
- K-FIT: With the new K-FIT system, we have developed one of the most modern and lightest adaptation systems with integrated mono-LED. Thanks to both the reflector and the flashing LED, K-FIT combines visibility with precise, finely-gridded adjustment in both rotational directions and reliable locking in the selected position.
- Colour: tricolore
- Größe: L (58 cm - 61 cm)
- Gewicht: 290 g
