Product Description

Incense cones Christmas incense, giant XXL, 20 pieces

Fine, exquisite balsamic incense unfolds its peaceful and imaginative effect during this smoking experience. Rounded off with vanilla pods and a mysterious undertone - the typical Erzgebirge Christmas scent that many people still know from childhood ... - when Raachermannl nabelt ...

Frankincense: a cleansing substance for body and soul or also called "fragrant gemstone". This intensely fragrant tree resin is a remedy, antiseptic, fragrance and incense at the same time and is also used in religious ceremonies

During the manufacture of the incense candle, a mass is created from charcoal, potato flour as a binding agent, sandalwood, red beech flour and some other ingredients for easy flammability, to which only the fragrance is added. In addition to the "royal powder" frankincense, other substances from distant, exotic countries are added to the candle mash, such as amber, lavender, mastic or balsam of Peru. The candles are then shaped, dried and packaged from this raw pulp.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the censer on a temperature-insensitive surface.

Use a sufficiently large censer for every incense cone size!
