Product Description

Smoking oven, brew kettle (brown hammer finish), 13 cm

This smoker made of sheet metal in a brewing kettle design is supplied with oven cutlery, incense holder with ash box and a sample pack of incense cones.

Our smokers are timeless and therefore not only suitable for the Christmas season. The practical incense candle holder with ash box ensures that the incense candles are completely dimmed. The remaining ash is easy to remove through the ash box and can be disposed of cleanly.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the censer on a temperature-insensitive surface.

All incense burners (especially the incense holder) should be cleaned regularly. By burning several incense cones, resin and fragrance deposits form, which smell unpleasant and can smoke very heavily when smoldering. You should therefore regularly clean your censer with warm water, soap and a brush.

- Height: 13 cm
- Color: brown, hammer finish
- Material: sheet metal
