Product Description

BIRD CAFE bird house, grey

Umbra Bird Cafe bird house is a modern bird feeder for hanging, a bird feeder with architectural design.

Invite birds to dine in style - and satisfy your taste for modern design - with this hip new twist on the traditional birdhouse. The Bird Cafe bird feeder by Umbra has a cube-shaped architectural form with asymmetrical windows.

After filling, the food is visible through the transparent plastic windows and flows out of the openings in the base into the surrounding tray, where the birds can perch and feed. The Bird Cafe's roof has an overhang that protects the bird food from rainwater.

Made of durable plastic, the feeder is 23 cm wide, 8.5 cm deep and 23 cm high. It has a steel cable for hanging. Remove the lid to fill the grains from the top. Grains are not included. Wash or wipe by hand. Holds about 2 litres of birdseed.

- Material: plastic
- Weight: 0,9 kg
- Colour: grey
- Dimensions: 23 x 23 x 21 cm
