Product Description

Our large Advent calendars are perfect for hanging on the wall or on a window. Discreetly decorated with glitter. Our Christmas calendars can be hung on a wall, door or window. Enjoy these high quality paper advent calendars in large format every day. You can send these Christmas calendars in an A3+ envelope (envelope not included).

Sellmer Verlag has been around for quite a long time, since 1945 to be exact. Sellmer was the first Advent calendar publisher to enter the market after the Second World War. It was founded by the grandfather of Frank and Oliver Sellmer, the current bosses. That is why there are still many old motifs in the programme today. A treasure trove for nostalgia lovers!

Even with new motifs, we always make sure that the motif on the front lives on when the little doors are opened. In other words, the reverse image complements what is happening on the front. A nice surprise every day. The city motifs show sights of the respective region, as well as Christmas ornaments.

All our Advent calendars and Christmas cards are made in Germany. We are a small family business with about 10 employees.
