Product Description

YORK is NEW. But so much so. When it comes to coolness, other lanterns are no match for the new YORK sea of lights. The industrial look sets the style and the tone. The lights of the big city prefer to sit on the windowsill and enjoy the great view. Its coated glass inserts are responsible for the magical reflections and consist of 3 glasses and 2 tubes. The steel frame allows the construction to be easily carried to the table. A cosmopolitan urban alternative to the otherwise playful lanterns in country house style.

Attention! Not suitable for children under 36 months.
