Product Description

RIBBONWOOD wall clock, 51 cm, natural

Umbra Ribbonwood Wall Clock is a noiseless quartz wall clock made of bent beech wood for kitchen, office, bedroom and more.

A wall clock that looks good and works reliably, who wouldn't want that? Are you looking for a modern wall clock with an eye-catching effect? We present the Ribbonwood wall clock by Umbra.

Ribbonwood wall clock is a stylish and at the same time functional wall clock. Its filigree, three-dimensional loop design is made of high-quality, bent beech wood. Each of the 12 bows symbolises one hour. Both hands are manufactured in a contrasting colour to the clock face to ensure best legibility - even from a greater distance. Ribbonwood's curved wood is part of a complex manufacturing process that requires high-pressure equipment, heat, special adhesives and great craftsmanship.

Ribbonwood has a noiseless precision quartz movement that delivers maximum accuracy without the need for manual winding. Ribbonwood requires only 1 x AA battery (not included) and is very energy efficient. Whether in the kitchen, office, study, hallway or bedroom, Ribbon looks good throughout the home. Are you looking for a special wall clock that also serves as wall decoration? Then order Ribbonwood wall clock from Umbra today!

Umbra is an international design company known for original, modern, cool, functional and affordable products for home & living.
