Product Description

This NeXtime "Henry" wall clock (50cm) has real moving gears so you can see, literally, how time passes by. This stylish industrial wall clock is large and bold, making it a perfect piece of art for your wall. The lovely romantic vintage green colour case, black hands and classic Arabic index (printed on glass lens), gives a high contrast to the white dial behind and makes this clock a real beautiful classic art! The moving gears are separately controlled from the clock and can be easily switched off. This clock runs on 3x AA battery (not included).

- Material: Metal & Glass
- Color: Green/ White
