Product Description

Brück & Sohn - Mini Advent Calendar "Pirna Market Place"

The mini advent calendar with the market and the town hall of Pirna is the advent calendar version in greeting card format for mailing. Pirna already inspired Canaletto to capture it in the picture. His picture was created around 1752 and is now part of the Old Masters Picture Gallery of the Dresden State Art Collections. Pirna is considered to be the gateway to Saxon Switzerland, which opens to the east from Pirna. In the warm season of the year, Germany's most popular cycle path invites you to cycle.

The Saxon Wine Route also begins in Pirna and leads via Dresden, Radebeul and Meißen to Diesbar-Seußlitz along the Elbe. Simply send this mini advent calendar with the Pirna Christmas market as Advent mail to friends, business partners and families. It is a pleasure for everyone, big and small, to open a little window every day.
