Product Description

Incense cones Christmas incense Minis XS, 24 pieces

Fine, exquisite balsamic incense unfolds its peaceful and imaginative effect during this smoking experience. Rounded off with vanilla pods and a mysterious undertone - the typical Erzgebirge Christmas scent that many people still know from childhood ... - when RaachermannI nabelt,

During the manufacture of the incense candle, a mass is created from charcoal, potato flour as a binding agent, sandalwood, red beech flour and some other ingredients for easy flammability, to which only the fragrance is added. In addition to the "royal powder" frankincense, other substances from distant, exotic countries are added to the candle mash, such as amber, lavender, mastic or balsam of Peru. The candles are then shaped, dried and packaged from this raw pulp.

Incense candles, incense sticks and incense may only be used on a fire-proof surface and under supervision. Please note that all incense burners can get hot during use. Therefore, always place the censer on a temperature-insensitive surface.

While the smokers for our minis (XS) can be smaller than 12 cm, smokers with a size of at least 13 cm are required for the size M. The giants in size XL and XXL should only be brought to smolder in sufficiently large incense figures or special incense burners. Use a sufficiently large censer for every incense cone size!
