from **128,40 EUR**

Item no.: 360113  
shipping weight: 0.40 kg  
Manufacturer: Reutter Miniaturen

### Product Description

Our wall clocks are powered by a quartz movement and are made of stained willow and birch wood. The real glass pane prevents scratching or blinding and protects the small miniatures from dust. In order to be able to access the inside at any time, the back panel can be removed with the complete contents. All the clocks can be stood or hung up. The filigree workmanship and attention to detail give our miniatures their very special Reutter flair. All our porcelain pieces with gold decoration are hand-painted with 24 carat gold and fired at 800°C. Our miniature works of art inspire people all over the world and often awaken a previously undiscovered passion for collecting. All our miniatures are handcrafted with dedication and care. Each Reutter miniature is unique and is made personally for you. The original may differ slightly from the picture. All individual parts are attached in such a way that they cannot come loose. 1x AA /1.5V batteries are included. Attention! Not suitable for children under 14 years.
