Product Description

In this unique vase, flowers are presented almost as if they were in the wild, as the arrangement of the blossoms is modelled on a flower meadow. With BOUQUET, each flower stem protrudes in a different direction. A great design idea that is guaranteed to attract everyone's attention. VASERENEWED: Christian von Ahn designed a vase for PHILIPPI that breaks new ground. Where flowers are usually placed together in a vase, BOUQUET has its own mini vase for each flower. The vase tubes made of polished aluminium are ARRANGEMENT FOR CREATIVES: With Bouquet, you can put together your favourite flowers yourself again and again. Combine opulent, short-stemmed flowers with discreet, long-stemmed flowers to create an eye-catcher on your table, dresser or counter. HANDLING AND CARE: Even designer pieces sometimes need care and attention. Flowers stay fresh for longer if they are watered regularly. Once the flowers have faded, remove them immediately. This vase is not dishwasher safe.
