Product Description

Octopuses are the most intelligent molluscs and at the same time shy and curious. When they want to, they adapt perfectly to their surroundings in terms of colour, or they shine in bright colours. The only question is which colour this octopus should take on for you. With its eight arms, it feels everything that attracts its attention and can also "cling" wonderfully to a nail in the wall. With the craft kits from LIEBESREH, you can create large and impressive paper sculptures without any special knowledge. The cutting out, folding and creasing of the labelled components is clearly indicated by clear markings and is part of the relaxed crafting fun. With the help of our detailed step-by-step instructions, you then glue the individual parts together and will be amazed at how an impressive three-dimensional figure develops in your hands.
