Product Description

These giants float almost weightlessly through the oceans. The whale cow leads her young over incredible distances without getting lost in the vast expanses. If you listen carefully, you can almost hear their melodic songs. With the craft kits from LIEBESREH, you can create large and impressive paper sculptures without any special knowledge. The cutting out, folding and creasing of the labelled components is clearly instructed with clear markings and is part of the relaxed crafting fun. With the help of our detailed step-by-step instructions, you can then glue the individual parts together and will be amazed at how an impressive three-dimensional figure develops in your hands. The whale school is also ideal for hanging up.
