Product Description

SERVE WITH ELEGANCE The aesthetically curved shape reveals at first glance that ANACAPRI was created for the highest culinary delights. Tea, coffee, pastries or champagne can be brought to the table effortlessly and safely with one hand thanks to the angled raised edges. The non-slip base made of vegan leather also prevents unintentional accidents. Veit Streitenberger's design, which is both functionally convincing and visually outstanding, is a testament to his training with design legends Richard Sapper (including ARTEMIDE, ALESSI, IBM) and Dieter Rams (BRAUN). A thing well learnt is a thing well done. **IT'S DIRECTED** The unusual, organically curved shape reveals at first glance that something special is always being served here. **GRIP** Thanks to the angled raised edges, ANACAPRI can be brought to the table effortlessly and securely with one hand. **DESIGN** Veit Streitenberger trained with design legends Richard Sapper (including ARTEMIDE, ALESSI and IBM) and Dieter Rams (BRAUN).
