Manufacturer: KED Helmsysteme

Product Description

KED Helmsysteme - Covis Lite Grey Black Matt L

Bike helmet with maxSHELL technology, QUICKSTOPP strap lock and adjustment, K-Fit adjustment system, FIDLOCK(R) technology, detachable and adjustable visor, 100% uv protection, insect net and 20 vents.

- **K-FIT:** With the new K-FIT system, we have developed one of the most modern and lightest adaptation systems with integrated mono-LED. Thanks to both the reflector and the flashing LED, K-FIT combines visibility with precise, finely-gridded adjustment in both rotational directions and reliable locking in the selected position.
- **MAXSHELL(R):** Apart from helmets with Inmold technology and the MIPS system, we also offer helmets using the maxShell(R) process, which are produced exclusively in Germany. The maxShell(R) technology provides an increased elasticity of the bond between the helmets top shell and its down shell, which has a positive impact on the shock-absorbing properties.
- **QUICKSTOPP(R):** Our QUICKSTOPP system at the center top of the helmet allows quick length adjustment of the strap and prevents uncontrolled sliding of the strap from one side of the head to the other.
- **FIDLOCK(R):** The FIDLOCK(R) technology makes it even easier to close the fastening buckle. Thanks to the combination of magnetic force and mechanical lock-in, the FIDLOCK(R) fastening buckle closes almost automatically and can be operated single-handedly. No unintentional pinching of the skin. The buckles are highly reliable, robust and secure.
- Size: L (55-61 cm)
- Weight: 450 g
- Color: grey black
- Certificated EN 1078
