Product Description

Tronus L, grey

There can be no doubt that the helmet is by far the most important part of a cyclist's equipment. Reason enough to concentrate on one central task: developing and producing optimal head protection systems.

Bicycle helmet with maxSHELL(R) technology, QUICKSAFE(R) size adjustment system with reflector, QUICKSTOPP(R) strap length adjustment and lock, removable visor, insect protection net, 13 ventilation openings and tested according to EN 1078.

MAXSHELL(R): Apart from helmets with Inmold technology and the MIPS system, we also offer helmets using the maxShell(R) process, which are produced exclusively in Germany. The maxShell(R) technology provides an increased elasticity of the bond between the helmet's top shell and its down shell, which has a positive impact on the shock-absorbing properties.

QUICKSAFE(R): Our QUICKSAFE(R) system is a tried-and-tested system that has proven itself millions of times over. It provides optimal operating comfort and for maximum safety on the road. Precisely-graduated fine adjustment in both directions with a single turn.

QUICKSTOPP(R): Our QUICKSTOPP system at the center top of the helmet allows quick length adjustment of the strap and prevents uncontrolled sliding of the strap from one side of the head to the other.

- Colour: grey
- Size: L (55 cm - 63 cm)
- Weight: 300 g
- Certificated EN 1078
