from **11,30 EUR**

Item no.: 374805
shipping weight: 0.20 kg
Manufacturer: dantoy

Product Description

A sustainable, Danish-made set consisting of two cups from the Dinnertime range in the tiny line from dantoy. Thanks to their size, the cups are easy to grasp for little ones who need to learn to hold them themselves. Using these cups helps to train the child's fine motor skills and hand-eye coordination. This tableware set can be easily extended with other pieces from the Dinnertime range, which are suitable for different meals and allow for beautiful colour combinations and additional tableware. This crockery set has a long lifespan as it can be used from the first meal and can be adapted according to the child's developing skills and motor skills. The tiny cups are a dantoy crockery set made in Denmark from recyclable bioplastic. The sustainable and high-quality cups from the Danish brand dantoy can be part of the meal from the very beginning and for many years to come when the child needs to learn to drink from a cup. They also help to strengthen fine motor development. Combine different sets and colours from the Dinnertime range to create a beautiful selection for your home.
