Product Description

WHAT IS CARTONIC?Cartonic 3D puzzles are the easy and environmentally friendly way to create a real work of art from cardboard. It's a kit of pre-cut cardboard discs, as simple as 1-2-3. During the making process, you literally witness it being created layer by layer. When you're done, you can make your artwork even more unique by painting it or placing it in your home as is. But we should warn you that you might need a new one as soon as you've finished assembling it, because the process is kind of addictive.WHAT IS SO CULT?If there was a top 100 popularity chart for dinosaurs, this guy would be the all-time leader. The T-Rex had quite short arms, but made up for this disadvantage with large, sharp teeth, each 20 cm high. It was one of the largest carnivores that ever lived on earth (or at least in the last 66-68 million years). They grew up to 12.3-12.4 metres long. The head alone was about 1.25 metres long! Our version is smaller and not dangerous at all.
