During creation, you will literally witness its formation layer by layer. Once you're done, you can make your artwork even more unique by painting it or enjoying it as is in your home decor. But we should warn that you might need a new one right after the assembly because the process is kind of addictive.WHAT'S SO CULT?If there would be a top 100 chart of dinosaurs' popularity this guy would be the all time leader. The T-Rex had quite short arms but compensated for this disadvantage with big sharp teeth 20 cm high each. Our version is smaller and not dangerous at all.
