Product Description

Cartonic 3D puzzles are the easy and environmentally friendly way to create a real work of art out of cardboard. It's a pre-cut set of cardboard discs, as simple as 1-2-3. During the making process, you can literally see it being created layer by layer. When you're done, you can make your artwork even more unique by painting it or placing it in your home as is. But we should warn you that you might need a new one as soon as you've finished assembling it, because the process is addictive. WHAT IS SO CULT? The car was intended to be exclusive from the start - only two of the first model were made. Ferrari drivers own more than 5,000 trophies in total. There may be faster or better equipped cars, but there is no other brand in Formula 1 with as much Italian class as Ferrari. So if you're a passionate car collector but don't yet own a Ferrari - start with our puzzle. You can paint it any colour you like, but let's be honest, it will be "racing red".
