225008 - Cane lantern L

from **70,35 EUR**

Item no.: 386828
shipping weight: 1.10 kg
Manufacturer: Philippi Design

Product Description

A FABULOUSLY CRAFTED WINDOW For once, not everything is perfectly aligned to the north and manufactured with perfect technical precision, but it is precisely these small, handcrafted imperfections that make CANE so charming. The lanterns in 4 different sizes also have a summery reed look (yes, it really is real reed!) and the fact that the candles and tea lights seem to float on the raised base. And because function should not be neglected either, CANE is equipped with a frosted glass cylinder that reliably protects the candlelight from the wind and is also dishwasher-safe. But as I said, that's really just by the way...- Material: reed - steel - frosted borosilicate glass- Weight: 1.67 kg- Length: 31 cm- Width: 31 cm- Height: 33 cm
