Product Description

SO HERRELY INCREDIBLEAs if the shape, colour and material of the three-piece COPENHAGEN bowl set weren't already enough to attract attention in the kitchen monotony, the designers have also added side inserts, which complement the ultra-practical function of a tray if required. Scandinavian cool, matt powder-coated on the outside, glossy enamelled on the inside, made of robust, durable steel, plus an endless list of possible uses - so here are just a few: Bread basket, bowl for pasta, rice, salad, decorative bowl for fruit, walnuts, Christmas biscuits and, and, and. When not in use, they can be practically stacked inside each other, but are a real shame to hide away in a dark drawer. - Material: powder-coated steel - enamelled inside- Weight: 3.35 kg- Length: 35 cm- Width: 35 cm- Height: 12 cm
