Product Description

MAY WE TAKE YOU INTO THE EVENING?The name TERRA describes the DNA of the tea light holder series pretty well, which, in addition to the obvious neutral, earthy colour scheme, also stands for a certain down-to-earthness and restraint that doesn't want to stand out at any price. The hand-blown glass art with a hand-cut rim blends seamlessly into almost any modern interior. Its five different vessels thrive on the combination of all shapes, but each also works wonderfully on its own. Pleasantly grounded in a way.- Material: hand-blown, hand-cut glass- Weight: 1.80 kg
