Product Description

CHRISTMAS CARD "VERSCHNEITES DORF"- Sellmer Verlag has been around for quite a long time, since 1945 to be precise. Sellmer was the first Advent calendar publisher to enter the market after the Second World War. It was founded by the grandfather of Frank and Oliver Sellmer, the current bosses.- This is why there are still many old motifs in the programme today. A treasure trove for nostalgia lovers!- Even with new motifs, we always make sure that the front motif lives on when the doors are opened. In other words, the back image complements what is happening on the front. A nice surprise every day. The city motifs show sights of the respective region, as well as Christmas ornaments.
