Product Description

UDry - Mini Drying Mat, charcoal

Toss the tea towel and ditch the dishcloth because UDry does so much more and it looks good while doing it! UDry's patented design combines a durable, molded plastic (BPA-free) dish drying rack (dishwasher safe) together with a lightweight, super-absorbent microfiber dish drying mat (machine washable). The result is an easy to use, easy to clean, all-in-one dish drying solution that you're going to love! Unlike a traditional dish drainer rack that sticks out like a sore thumb and devours precious counter space, UDry features a low-profile, space-saving design that won't get in your way.

In fact, you'll barely notice it unless of course it's stacked with freshly washed dishes. But don't let its sleek appearance fool you, UDry holds a surprisingly large assortment of dishes, glassware, cutlery, pots, pans and more. When not in use, your UDry folds up neat and compact so you can tuck it away in a drawer or cupboard leaving your counter-top completely properly.

Features:

- Dish drying rack and mat in one
- Super-absorbent microfiber mat
- Removable dish rack tray
- Folds for easy, compact storage
- Designer: David Green
- Main Material: Polypropylene
- Weight: 0.2 kg
- Colour: charcoal
- Dimensions: 51 x 33 x 4 cm
