## 235008 - Radius pillar candle holder L

from **35,28 EUR**

Item no.: 395965  
shipping weight: 0.50 kg  
Manufacturer: Philippi Design

### Product Description

**RADIUS** pillar candle holder **PURPOSEFUL**: Despite its simplicity, there is of course one detail that should not be missing - the small spike in the centre of the candle plate centres block candles, regardless of size, and prevents them from slipping during transport. **RENAISSANCE**: The simple shape, which also manages the feat of taking a leap back to the Middle Ages, is strikingly (and not entirely coincidentally!) similar to the night lights from times gone by. **REDUCE TO THE MAX**: For a radius, you always need a circle (sometimes two) and there you have the simplest shape in the universe. A candle holder could hardly be more minimalist, timeless and elegant. **Product details**- Item no.: 235008 - Material: mirror-polished stainless steel - EAN: 4037846175797 **Weight & dimensions**- Weight: 560 g - Dimensions: Length: 15 cm Width: 15 cm Height: 6 cm
