from **44,25 EUR**

Item no.: 395971
shipping weight: 1.10 kg
Manufacturer: Philippi Design

Product Description

COOL carafe with cooling base
KALTGESTELLT: Homemade drinks, iced tea or mineral water with fresh mint and lime in a classically shaped carafe made of hand-blown glass, always ready to hand at the table
SHORT WALKS: Whether in the garden, on the patio or balcony, at your desk - there's no need to go to the fridge because the **COOL** carafe is already equipped with a separate cooling base.
CLEVER AND SMART: The stainless steel lid can be operated with one hand, making pouring easy and preventing insects from getting into the carafe. The integrated sieve holds back pieces of fruit
Innovative carafes: stylish cooling for your drinks
Carafes are indispensable elements for stylish table decoration and a practical solution for storing and presenting drinks. Innovative carafes in particular, which are equipped with a cooling base, offer an elegant way to keep drinks cool for longer. These carafes impress with their modern design and functionality by keeping the temperature of water, wine or juice constantly low thanks to their cooling base. With a carafe that has a cooling base, the contents not only stay fresh, but are also presented in style. These carafes are ideal for use on special occasions and offer an appealing way to entertain guests. Their elegant design blends seamlessly into any table setting while adding a practical touch. To summarise, carafes with a cooling base offer the perfect combination of style and functionality. They are a must-have for anyone who wants to enjoy their drinks in style and cool.
