Product Description

COUCH mini coat rack **NOTHING LIKE GETTING UP ON THE COUCH**: The Pocket Emptier hangs ultra-casually on the wall in the entrance area. The pockets can be emptied in no time at all when the card holder, smartphone, sunglasses and accessories make themselves comfortable next to the cushion **HANGING UP CONVISIONALLY**: Nothing can slip off the sloping seat, while the keys are neatly lined up underneath on one of the three hooks. Clothes hangers can also be hung on the couch frame **WHO HAS THE KEYS**: Everything you need for travelling is stored in a single, easily visible place. This eliminates the tedious search **DROP AND HANG IN ONE PLACE** Coming home and going straight to the **COUCH** takes on a whole new meaning from now on. The ultra-chic miniature version hangs on the wall in the entrance area. With the Pocket Emptier, the pockets are emptied in no time at all - card case, smartphone, sunglasses and other accessories make themselves comfortable next to the corresponding cushion and remain ready to hand at this fixed location without having to search. Keys can be stored neatly underneath on one of the three hooks. However, if this seat actually looks more elegant than its big sister in the living room, you should think again...
