Product Description

Product description Soaps come in many shapes and formats. To ensure that every bar of soap finds its place on your washbasin, we have opted for a classic rectangular basic shape for this bathroom accessory. The bowl is therefore equally suitable for standard and customised soap formats. The rounded corners are both aesthetic and practical - with no sharp edges, you won't get stuck anywhere. The practical drainage holes for excess water ensure that your soap stays dry on the underside and doesn't become unpleasantly greasy. This does not detract from the look, as the three spouts are so delicate that they do not detract from the design. You will find a large selection of fragrant, sustainably produced soaps in our range to match.
