650005 - 3D craft kit Tyrannosaurus (MQ6)

from **8,45 EUR**

Item no.: 392094
shipping weight: 0.10 kg
Manufacturer: Eugy

Product Description

The 1.25 metre long and large head of a T-Rex is highlighted in our Tyranno EUGY. It displays its tyrannical behaviour with sharp claws and teeth in all its glory! However, contrary to popular depictions, palaeontologists have discovered that they weren't as fast as we thought - humans could have outrun a T-Rex! Good for nature AND for you! EUGY not only encourages creativity, but is also environmentally friendly. So go on... bring your wilderness home! We have won a Red Dot Award! The Red Dot is the award for high design quality. Only products with an outstanding design are honoured by the international jury with the coveted seal of quality. Our core values are benevolence towards nature and life, refined quality and beautiful design. We are delighted that our beautiful design has now been recognised by a prestigious international design award, the Red Dot. Our products comply 100% with international safety standards (EN71-1,2,3 and CPSIA). An EUGY pack contains 7 flat cards with individually numbered parts that you can assemble yourself. 1. Press the individual parts out of the perforated card 2. Apply glue to each part 3. Put them together in numerical order And... Bring Your Wild Home!
