650071 - 3D craft set rabbit (MQ6)

from **8,95 EUR**

Item no.: 392129
shipping weight: 0.10 kg
Manufacturer: Eugy

Product Description

Hop, hop, hooray! One of the most common animals joins the EUGY family. Rabbits are known for being masters of reproduction, giving birth to up to 14 baby rabbits - called kittens - after just one month of gestation. They are SUPER cute, but they also have "superpowers" because their long ears can rotate 180 degrees so they can keep an eye out for predators. Good for nature AND for you! EUGY not only encourage creativity, but are also environmentally friendly. So go on... bring your wilderness home! Our products are 100% compliant with international safety standards (EN71-1,2,3 and CPSIA). An EUGY pack contains 7 flat cards with individually numbered pieces that you can assemble yourself.
