31,⁹² EUR

Item no.: 352806
shipping weight: 0.30 kg
Manufacturer: KED Helmsysteme

📄 Product Description

The KED® MEGGY ORIGINALS are the classics among children's helmets and bring the series heroes of your children directly to you. Thanks to appealing, child-friendly designs under original licences and perfect ventilation, your child will immediately fall in love with this helmet. But safety is not neglected either. With LED flashing light at the back of the head and QUICKSAFE adjustment system that is as simple as it is effective, the KED® MEGGY ORIGINALS guarantee comfort and safety for your darling.

Smaller helmets, but great protection: Bicycle helmets for children and teenagers are an integral part of the KED® range, because the protection of the youngest is especially important to us. From colourful children's helmets to cool bike helmets for teenagers and off-road helmets for ambitious youngsters.

Striving for independence is a central element of our company. From being a supplier, we became a helmet manufacturer in 1995. We have developed our own patents, with which the safety of our helmets set a new standard on the market. Our high level of vertical integration at the company site in Freiberg makes us independent of international supply chains. This also strengthens the relationship with the specialised trade, which is so important for us, and with our customers, who benefit from short delivery routes and times.

From the foaming of the helmet inner shell to the final assembly and the smallest injection-moulded part, we produce everything under one roof. Every step is checked. This in-house expertise is important to us; it is our basis for going our own independent ways.

- Weight: 250g
- Size: S 46 - 51 cm
