Conserving resourcesThe responsible treatment of our environment is very important to us. We constantly scrutinise our production steps, initiate long-term changes at our company and our manufacturers and remain dynamic. In addition to our production processes, we are also working to minimise our company's emissions. Fair & socialRespect and fair dealings with one another are among the most important criteria for us in terms of good cooperation. Our manufacturers are members of the Business Social Compliance Initiative (BSCI), which aims to realise a global improvement in working conditions. Low WasteWith this product, you are buying a sustainable and environmentally friendly alternative to conventional products. The packaging has been reduced to a minimum.
