Product Description

These pleasantly soft cleaning cloths made of GOTS-certified organic cotton offer you a sustainable alternative to conventional dishwashing sponges, which are usually made of plastic and have to be disposed of after a short time of use. The sustainable dishcloths are available in a practical 2-pack in great colours. The grippy quality makes them especially absorbent and multifunctional. Use them for washing dishes, wiping down the table or cleaning the bathroom. You can also use them as a small guest towel or pot holder. After use, you can easily clean them in the washing machine and thus reuse them for years. This way, you make a valuable contribution to waste prevention.
